# AMAZON S3

Creation :

The screenshot displays the Workato application interface for creating a new recipe. The browser address bar shows the URL: <https://app.workato.com/recipes/48038892-create#recipe>. The page title is "Create | Workato". The main navigation bar includes "Projects > Amazon s3 > Create : Recipe" and a "Create" button. The right sidebar contains buttons for "Edit recipe", "Start recipe", and a "Paused" status indicator.

The central workspace is divided into two main sections: "Recipe" and "Jobs". The "Recipe" section shows a workflow diagram with the following steps:

- TRIGGER**
  - 1. New/updated file in directory on FTP/FTPS server
- ACTIONS**
  - 2. Download file contents from FTP/FTPS server (File)
  - 3. Upload file in Amazon S3 (File)
  - 4. STOP job
- End**

The "Jobs" section on the right shows the status of the recipe:

- Inactive**
- Successful jobs: 1
- Failed jobs: 0
- Location: Amazon s3
- Stopped: Sunday at 2:35 AM
- Dependencies: Recipe uses 2 assets
- Description: + Add description

The bottom of the screen shows a Windows taskbar with various application icons and system information, including the date and time (06-06-2024, 06:35).
